Education

Bachelor of Science in Mechanical Engineering – Magna Cum Laude *Chico State University* - GPA: 3.76

Relevant Coursework: Differential equations – Energy Systems – Strength of Materials – Advanced Manufacturing

Experience

Society of Automotive Engineers Chico, CA

SAE Baja Club Officer August 2024 – May 2026

- Leadership and management of gearbox sub team
- Engineering on a large scale working in groups
- Multiple subgroups collaborating to create one cohesive vehicle
- Automotive industry simulating experience
- Design, validation, manufacturing, composite experience, assembly, and testing

Construction Management San Francisco, CA

Southland Industries Project Engineering Internship June 2025 – August 2025

- MEP experience on the largest healthcare construction project in California
- Teamwork and team development
- Documentation gathering and organization
- Start to finish HVAC design and estimation project
- Communication between several departments and multiple companies

Projects

Academic

4 Wheel Drive RC Car (1st Place Machine Design) January 2024 – May 2024

- Detailed design and evaluation in a comprehensive design report
- Advanced manufacturing processes used in a professional workshop
- Complex geometry 3D printed carbon fiber frame
- Integrated off-the-shelf components with custom drive train

Automated Microscopic Flaw Inspection System (1st Place Capstone) September 2025 – May 2026

- Project Manager of a four-person team
- Sponsored by Lawrence Livermore National Laboratory
- Start to finish product development for fusion research technologies
- Budget analysis and cost evaluation throughout project
- Working with sponsors for requirement definitions and design reviews

Personal

Moped Rebuild June 2022 – August 2023

- Modifying existing chassis for redesign
- Manufacturing custom body panels
- Wiring custom brake lights, turn signals, and headlights
- Sourcing parts and working with a group

Mini Go-kart Upgrade July 2024 – August 2024

- Fabricating a custom steel engine mount in a professional grade workshop
- Measuring and connecting custom chain and gears for increased torque
- New battery and motor holding tray and protective frame

Skills & Interests

Programs: SolidWorks' CSWA Certified Associate – Java – Python – MATLAB – LabVIEW – Excel – Word – Logger Pro

Strengths: Leadership – Group Collaboration – Mechanical Analysis – Mechanical Design – Manual Machining
Custom Fabrication – Manufacturing Capabilities – Automotive Experience – Quick Learning – Improvising in the Field
